

Sherwood Grange Public School

Works notification | 2 June 2026

Dear staff, parents and carers,

The health, safety, and wellbeing of all members of our school and the local community are our highest priorities.

We will be converting a toilet in the administration building at Sherwood Grange Public School into an accessible toilet.

As part of this work we will be removing bonded asbestos-containing material known to be in the wall sheeting as per the school's asbestos management plan.

The asbestos removal work will be completed over the weekend of Saturday 13 June and Sunday 14 June 2026.

For more information about asbestos please visit the [NSW Health website](https://www.nsw.gov.au/health) or scan the QR code.

The conversion work will include the installation of ramps and railings outside the administration building.

As a precaution, the area will be cordoned off to restrict access to students, staff and school visitors throughout the work.

All work involving asbestos containing materials will take place outside of school hours with safety measures such as air monitoring in place.

The toilet will be inspected by an independent hygienist and a clearance certificate will be issued before work continues.

Work hours are between 7 am and 6 pm Monday to Friday, and 8 am and 1 pm on Saturday, in line with NSW Environment Protection Authority guidelines.

We expect the accessible toilet to be operational from Monday 6 July 2026, weather permitting.

All work will be done in accordance with work health and safety laws and the NSW Department of Education's Asbestos Management Plan. Safety measures will be in place while work is being done. All work will be completed by licensed asbestos contractors.

If you have any questions about this work, please contact the NSW Department of Education using the details below.

Thank you for your understanding and support during this important work.
