

St Ives Public School

Works notification

10 October 2022

Dear staff and parents/carers,

Upcoming maintenance works to upgrade the Administration Building (Block A) as part of the Metro Renewal Program at St Ives Public School will involve working with asbestos containing material in the flooring and ceiling of Block A.

Work will take place between Saturday 15 October and Friday 21 October 2022. All asbestos containing material will be removed outside of school hours and in accordance with the advice of the independent hygienist.

The area will be cordoned off before works start, and safety measures and monitoring put in place. It will remain out of bounds to students and staff until the removal and associated maintenance work is completed.

This area will be remediated in accordance with SafeWork NSW regulations and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed and accredited asbestos contractors, and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies and guidelines.

The area will be inspected to ensure it has been fully remediated. The school will receive a clearance certificate before the area is open to students and staff.

The health, safety, and wellbeing of the school and the local community is our highest priority.

The NSW Government is investing \$240 million as part of the COVID-19 Recovery Plan to accelerate projects across NSW.

Thank you for your cooperation during this important work.
