

Kingswood Park Public School

Works notification | 10 November 2025

Dear staff, parents, carers and neighbours,

We are delivering a new flexi-hub building at Kingswood Park Public School. This project will provide the school with 2 new classrooms that can be flexibly converted into offices and toilet facilities.

Temporary traffic changes on Caloola Avenue

As part of this project, we are temporarily closing a section of Caloola Avenue to undertake concrete works.

Our contractor, Reld Group, will complete these works on **Friday 14 November 2025 between 9:30 am and 2:30 pm.**

Concrete trucks will enter the site via Caloola Avenue. Please refer to the **map overleaf** for a description of the lane closure and work area.

This activity is not expected to disrupt pedestrian or driver access to the school or neighbouring properties.

Please take care on the roads surrounding the school and follow the instructions of the traffic controllers as there will be extra vehicles using the road while this work is taking place.

We will make every effort to ensure work is carried out safely and efficiently with minimal disruption to the community.

If you have any questions about this work, please contact the NSW Department of Education on the details below.

We are committed to the safety and wellbeing of our school and local community and appreciate your understanding.

Thank you for your cooperation during this important work.
