

Toongabbie East Public School

Works notification | 17 June 2026

Dear staff, parents and carers,

Work to upgrade the Administration Building at Toongabbie East Public School is underway.

During this work, a contractor found material suspected to contain bonded asbestos in the soil. Work was stopped and an independent hygienist was engaged to collect the material for testing. Testing confirmed that the material contained bonded asbestos.

The area was already inaccessible to students and staff, as the area was being upgraded. This location is not in an area identified on the School Asbestos Management Plan (SAMP).

Work to remove asbestos-containing materials took place on Saturday 13 June 2026 with safety measures in place and finished on the same day.

All work was done by licensed asbestos contractors and inspected by independent hygienists in accordance with work health and safety laws and the NSW Department of Education's Asbestos Management Plan.

The health, safety, and wellbeing of all members of our school and the local community are our highest priorities.

If you have any questions about this work, please contact the NSW Department of Education on the details below.

Thank you for your understanding and support during this important work.

For more information about asbestos please visit the [NSW Health website](#) or scan the QR code.
