

Toongabbie East Public School

Works notification | 17 September 2026

Dear staff, parents, carers and neighbours,

On Monday 14 September 2026, 2 sheets of asbestos containing material were found loose inside a locked electrical cupboard in the school hall. They had come off the back of the cupboard doors.

These sheets, which are intact, are known to contain bonded asbestos, and are identified in the School's Asbestos Management Plan.

As a precaution, the cupboard has remained securely locked with the sheets inside, and the area is isolated from students and staff.

A specialised licensed asbestos contractor has been engaged to inspect the site and remove the asbestos containing material.

This work is expected to take place outside of school hours on Saturday 19 September 2026, with safety measures in place.

Following the removal, the electrical cupboard will remain locked and the area will be cleared by an independent hygienist.

All work will be done in accordance with work health and safety laws and the NSW Department of Education's Asbestos Management Plan.

The health, safety, and wellbeing of all members of our school and the local community are our highest priority.

If you have any questions about this work, please contact the NSW Department of Education on the details below.

Thank you for your understanding and support during this important work.
