

Lewisham Public School

Holiday works notification | Autumn 2026

Dear staff, parents, and families,

We are upgrading the student toilet block in Building D at Lewisham Public School.

As construction continues, we have identified an opportunity to upgrade the adjoining staff toilets and have now included this work in the scope of this project.

The work is due to be complete, and the toilets reopened for use in early May.

Alternative toilet facilities are available at the school for students and staff.

The health, safety and wellbeing of all members of our school and the local community are our highest priorities.

What makes Lewisham Public School special?

Lewisham Public School offers a high-quality, comprehensive education for Kindergarten to Year 6 students. The school focuses on personalised learning, ensuring teachers provide specific support and challenges, including programs for high-potential and gifted learners. In partnership with parents and carers, the school encourages every learner to foster a growth mindset, to take risks in learning and to see mistakes as stepping stones to success.
