

# Irrawang Public School

Works notification | 3 May 2023

Dear staff and parents/carers,

We are replacing an electrical distribution board in a storeroom in Building H as part of upcoming planned maintenance at Irrawang Public School. This work requires removing a ceiling sheet of known asbestos containing material, to access and install cabling in the ceiling.

The storeroom is being safely used as the ceiling is undisturbed and in good condition. The work area will be cordoned off before work start and additional safety measures and monitoring in place before works start.

Work to remove the ceiling sheet will take place on Saturday 6 May 2023. All works involving asbestos containing materials will take place outside of school hours.

Work will be done in accordance with SafeWork NSW regulations and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed and accredited asbestos contractors and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies and guidelines.

The area will be inspected by an independent hygienist to confirm it has been fully remediated, and the school will receive a clearance certificate. The storeroom will be reopened when the removal and associated maintenance is finished.

The health, safety, and wellbeing of the school and the local community is our highest priority. Thank you for your cooperation during this important work.
