

Baulkham Hills North Public School

Works notification | 17 January 2024

Dear community members,

We have been doing work to replace eaves and other structures at Baulkham Hills North Public School over the school holidays. This work involves working with asbestos-containing materials.

The work was due to be completed by Monday 15 January 2024. Due to poor weather conditions, the work was unable to be completed within this timeframe.

Access to the school will remain restricted until 7am Thursday 18 January 2024.

All work involving asbestos-containing materials must take place when school and community members are not onsite, with additional safety measures and monitoring in place before the work starts.

Work will be done in accordance with work, health and safety laws and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed and accredited asbestos contractors and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies, and guidelines.

The school will be inspected by an independent hygienist to confirm it has been fully remediated, and the school will receive a clearance certificate before the school is reopened.

The health, safety, and wellbeing of the school and the local community is our highest priority.

Thank you for your cooperation during this important work.
