

Jasper Road Public School

Works notification | 8 March 2024

Dear staff, parents, and carers,

On Thursday 29 February, during planned roof works, a contractor identified damaged eave material in the corner of the general learning area in Building E. The area was fenced off and made out of bounds.

The area is known to contain asbestos as per the school's asbestos register.

On Monday 4 March, work took place to remove all the material. Testing has confirmed that the fragments came back negative for asbestos. The area has now been reopened.

Work was done in accordance with work, health and safety laws and the NSW Department of Education's Asbestos Management Plan. All work was completed by licensed and accredited asbestos contractors and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies, and guidelines.

The health, safety, and wellbeing of the school and the local community is our highest priority.

If you have any questions about this work, please contact the NSW Department of Education on the details below.

Thank you for your cooperation during this important work.
