

# Beresford Road Public School

## Works notification | 21 February 2023

Dear staff and parents/carers,

Upcoming maintenance works to install external drainage in Building G at Beresford Road Public School will involve working with assumed asbestos containing material in the soil outside Building G.

We are following the advice and protocols of independent asbestos hygienists and other experts. The area will be cordoned off to keep students, staff and school visitors separate.

Work will take place on Saturday 25 February and Sunday 26 February 2023. All works involving asbestos containing materials will be conducted in accordance with the advice of the independent hygienist and will take place outside of school hours, with additional safety measures and monitoring in place before works start.

This area will be remediated in accordance with SafeWork NSW regulations and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed and accredited asbestos contractors and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies, and guidelines.

The health, safety, and wellbeing of the school and local community is our highest priority, and we will continue to keep the community updated.

Thank you for your understanding during this important work.
