

# Edward Public School

## Works notification

10 October 2022

In July 2021, a fire destroyed part of Block C at Edward Public School. Staff and students will continue to use demountable classrooms in the interim as restoration works continue.

### **Repair and remediation works to Block C**

During the school holidays, works to replace the carpets at Edward Public School involved working with asbestos containing material in the flooring of two classrooms and one computer room in Block C.

Work took place between Tuesday 4 October and Sunday 9 October 2022. All asbestos containing material was removed outside of school hours and in accordance with the advice of the independent hygienist.

Safety measures and monitoring were in place and the area remained out of bounds to students and staff until the removal was completed.

This area was remediated in accordance with SafeWork NSW regulations and the NSW Department of Education's Asbestos Management Plan. All work was completed by licensed and accredited asbestos contractors and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies and guidelines.

Testing was completed to ensure the area has been fully remediated. The school received a clearance certificate before the area was open to students and staff.

Thank you for your cooperation during this important work.
