

Emerton Public School

Works notification | 23 October 2025

Dear staff, parents and carers,

As part of planned maintenance, we will be removing and replacing partition walls in the student toilets in Building C at Emerton Public School.

The partition walls in these toilets contain bonded asbestos as listed on the school's asbestos management plan.

NSW Health explains that "living or working with asbestos, or just being around it, is a low risk to your health as long as the asbestos is in good condition and not damaged".

Removal of asbestos-containing materials will be done on Saturday 25 and Sunday 26 October 2025.

Safety measures including fencing, air monitoring, signage and workers wearing personal protective equipment will be in place during this work. All work will be done in accordance with work health and safety laws and the NSW Department of Education's Asbestos Management Plan.

All work will be completed by licensed asbestos contractors and inspected by an independent hygienist with a clearance certificate issued before the toilets are reopened.

The health, safety, and wellbeing of all members of our school and the local community are our highest priorities.

If you have any questions about this work, please contact the NSW Department of Education on the details below.

Thank you for your cooperation during this important work.
