

Killarney Vale Public School

Works notification | XX September 2026

Dear staff, parents and carers,

The health, safety, and wellbeing of all members of our school and the local community are our highest priorities.

On Friday 28 August 2026, 4 cracked windows were discovered in the counsellor's office in Building A at Killarney Vale Public School.

We suspect the putty in the window panes contain asbestos due to the age of the building.

We immediately secured the glass and engaged an independent hygienist to provide advice. As the material is undisturbed the area is able to continue being used.

We are planning to remove the putty and replace the glass on Saturday 5 September 2026.

All work will be done in accordance with work, health and safety laws. All work will be completed by experienced contractors and inspected by independent hygienists.

If you have any questions about this, please contact the NSW Department of Education on the details below.

Thank you for your understanding during this important work.
