

Niagara Park Public School

Works notification | 14 May 2026

Dear staff, parents and carers,

The health, safety, and wellbeing of all members of our school and the local community are our highest priorities.

We are repairing the external movement area of buildings A and B at Niagara Park Public School.

During this work, bonded asbestos-containing material, as listed on the School Asbestos Management Plan, will be removed from the external ceiling lining of the covered walkway.

As a precaution, the covered walkway has been closed to restrict access to students, staff and school visitors.

Work to remove the lining from the covered walkway will take place on Saturday 23 May 2026.

All work will be done in accordance with work, health and safety laws. All work will be completed by experienced contractors and inspected by independent hygienists with air monitoring in place.

If you have any questions about this work, please contact the NSW Department of Education using the details below.

Thank you for your understanding and support during this important work.

What makes Niagara Park Public School special?

Niagara Park Public School is known for its caring and inclusive environment where students are encouraged to achieve their personal best academically, socially and emotionally. The school has a strong community focus and values positive relationships between students, staff and families.
