

Niagara Park Public School

Works notification | 6 February 2025

Dear staff, parents and carers,

As part of regular maintenance, we repaired some windows in the administration building staff room at Niagara Park Public School.

The material in the affected window frame putty contained bonded asbestos as listed on the school's asbestos register.

NSW Health explains that 'living or working with asbestos, or just being around it, is a low risk to your health as long as the asbestos is in good condition and not damaged'.

Work to repair the windows took place during the recent school holidays on Tuesday 21 January 2025.

All work involving asbestos-containing material was done in accordance with work health and safety laws and the NSW Department of Education's Asbestos Management Plan. All work was completed by licensed asbestos contractors and monitored by independent hygienists.

Following the work, the areas were inspected by an independent hygienist and clearance was provided.

The health, safety and wellbeing of the school and the local community is our highest priority.

If you have any questions about this work, please contact the NSW Department of Education on the details below.

Thank you for your cooperation during this important work.
