

Marton Public School

School holiday works notification - Summer | December 2023

School Infrastructure NSW regularly inspects and maintains schools to ensure the safety and wellbeing of our school communities.

The school holidays are the ideal time for a lot of maintenance and project work to take place in schools across the state without disrupting learning. The Summer school holiday period is our busiest of the year as this extended time allows us to complete work that takes longer or may be more disruptive.

Planned work over the school holidays at some schools may involve working with hazardous materials such as asbestos or lead containing material. This may include remediation or removal of material, or sampling. This notification is to let you know about work taking place at your school involving these materials.

Planned work over the Summer school holidays

We will be doing maintenance work at your school **during the Summer school holidays**. This involves removal of asbestos-containing materials **from Monday 8 January to Thursday 18 January**.

We are replacing carpets at your school. As part of this work, asbestos containing vinyl tiles will need to be removed in Buildings A to E.

Work will be done in accordance with SafeWork NSW regulations and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed and accredited asbestos contractors and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies, and guidelines.

Appropriate measures including air monitoring by an independent hygienist will be in place during all works.

The onsite out-of-school hours service provider (OSHC) will be relocated to the school hall during the remediation work. We will work with the independent hygienist on additional measures they recommend to ensure that the OSHC can continue to operate safely.

When the remediation work is finished, the areas will be inspected and the school will receive a clearance certificate before work continues.

The health, safety, and wellbeing of the school and the local community is our highest priority. Thank you for your cooperation during this important work.

If you have any questions about the work, please contact us on the details below.
