

# Hillvue Public School

## Works notification | 23 February 2026

Dear staff, parents and carers,

On Friday 20 February 2025 a staff member found fragments of material suspected to contain bonded asbestos whilst repairing a pop-up sprinkler next to the shade structure on the sports oval at Hillvue Public School. The area was immediately cordoned off using temporary fencing.

As a precaution an independent hygienist was engaged to inspect the ground, collect the fragments for testing and provide advice on Tuesday 24 February 2026.

The area will remain fenced off until testing results have been received and the independent hygienist advises the oval can be reopened.

Sample testing results will take a few days to be returned. The area will remain fenced off until further advice is provided by an independent hygienist. The health, safety, and wellbeing of all members of our school and the local community are our highest priorities. We will keep the community updated.

If you have any questions about this work, please contact the NSW Department of Education on the details below.

Thank you for your cooperation during this important work.
