

Madang Avenue Public School

Works notification | 12 June 2026

Dear staff, parents, carers and neighbours,

We would like to inform you that we are laying new carpet in various areas in Building A at Madang Avenue Public School.

We are working on:

- the entryway of the ground floor
- the staffroom on the ground floor
- 6 offices across the ground floor and level 1
- the library on level 1
- the movement area of level 1.

Existing vinyl tiles in these areas contain bonded asbestos, as listed on the School Asbestos Management Plan (SAMP). Licensed asbestos contractors will remove them with safety measures in place while staff and students are not at the school. An independent hygienist will inspect the areas and issue a clearance certificate before we lay the new carpet and reopen the areas.

All work will be complete before students return for Term 3.

NSW Health explains that "living or working with asbestos, or just being around it, is a low risk to your health as long as the asbestos is in good condition and not damaged". All work will be done in accordance with work health and safety laws and the NSW Department of Education's Asbestos Management Plan.

If you have any questions about this work, please contact the NSW Department of Education using the details below.

The health, safety, and wellbeing of all members of our school and the local community are our highest priorities.

Thank you for your understanding and support during this important work.

For more information about asbestos please visit the NSW Health website or scan the QR code.
