

Curran Public School

Works notification | 17 March 2023

Dear staff and parents/carers,

Earlier this year, planned maintenance works to replace the vinyl tiles at Curran Public School included working with asbestos containing material in the practical activities room, located in Building A.

The material was removed on Saturday 25 February 2023. Safety measures and monitoring were in place and the area remained out of bounds to anyone on site until the asbestos removal and associated maintenance work was finished.

Work was done in accordance with SafeWork NSW regulations and the NSW Department of Education's Asbestos Management Plan. All work was completed by licensed and accredited asbestos contractors, and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies and guidelines.

The area was inspected to ensure it had been fully remediated, the school has received a clearance certificate and the area has reopened to students and staff.

The health, safety, and wellbeing of the school and the local community is our highest priority. Thank you for your cooperation during this important work.
