

Sanctuary Point Public School

Works notification | 3 September 2026

Dear staff, parents and carers,

The health, safety, and wellbeing of all members of our school and the local community are our highest priorities.

We are replacing the vinyl tile flooring, in a practical activity area in Building D at Sanctuary Point Public School.

The vinyl tile flooring is known to contain bonded asbestos as listed on the School's Asbestos Management Plan.

Asbestos was used widely in Australian building materials before 1990. We manage the presence of asbestos in NSW public schools by maintaining an Asbestos Management Plan for each school and engaging independent hygienists for expert advice.

All work involving asbestos containing materials will take place outside of school hours from Friday 11 September 2026 to Saturday 12 September 2026 with safety measures, including the use of personal protective equipment (PPE) and air monitoring.

All work will be carried out in accordance with work health and safety laws and the NSW Department of Education's Asbestos Management Plan. Safety measures will be implemented while the work will be undertaken. All work will be completed by licensed asbestos contractors and inspected by independent hygienists.

For more information about asbestos, please visit the [NSW Health website](#) or scan the QR code.

If you have any questions about this work, please contact the NSW Department of Education on the details below.

Thank you for your understanding and support during this important work.
