

Jewells Primary School

Works notification | 20 March 2024

Dear staff and parents/carers,

We will be replacing the toilet cubicle locks in student toilets in Buildings D, G & H at Jewells Primary School as part of routine maintenance. This work will involve working with known asbestos material in the toilet partitions, as listed on the school's asbestos register.

Work to replace the locks will be done under the supervision of an independent hygienist on Saturday 6 April 2024, with additional safety measures and monitoring in place before the works start.

Work will be done in accordance with work, health and safety laws and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed and accredited asbestos contractors and monitored by independent hygienists in strict accordance with all applicable legislation, regulations, policies, and guidelines.

After the work is finished, the areas will be inspected by the independent hygienist and the school will receive a clearance certificate before the toilets are reopened.

The health, safety, and wellbeing of the school and the local community is our highest priority.

Thank you for your cooperation during this important work.
