

# Jewells Primary School

## Works notification | 28 October 2025

Dear staff, parents and carers,

Following the [works notification from 14 October 2025](#), we are removing asbestos at Jewells Primary School.

Asbestos removal will take place in the following locations:

- covered walkways between buildings C, D, E, F, G and H
- the corridor ceiling between the hall and toilets in the canteen block
- the movement area of Building D.

NSW Health explains that "living or working with asbestos, or just being around it, is a low risk to your health as long as the asbestos is in good condition and not damaged".

The work in the covered walkways and Building D movement area will allow for the repair of timber framing. Once repairs are complete, the areas will be re-lined with an appropriate alternative.

All work involving asbestos-containing materials will take place outside of school hours on Saturday 1 November and Saturday 8 November 2025, between 8 am and 1 pm, in line with NSW Environment Protection Authority guidelines.

Air monitoring to date across the site has returned results below the minimum detectable limit, which means it is consistent with acceptable levels in ambient air (i.e. <0.01 fibres/mL) as per SafeWork NSW guidelines.

All work will be done in accordance with work health and safety laws and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed asbestos contractors and inspected by independent hygienists.

Safety measures such as temporary barriers or fencing, locked work zones, clear signage, workers wearing personal protective equipment and air monitoring will be in place while work is being done.

The health, safety, and wellbeing of all members of our school and the local community are our highest priorities.

Thank you for your cooperation during this important work.
