

Willmot Public School

Works notification | 10 June 2026

Dear staff, parents and carers

The health, safety, and wellbeing of all members of our school and the local community are our highest priorities.

We are upgrading the classrooms and rooms in Building A at Willmot Public School.

The project involves replacing the floor coverings, replacing existing partitions and repainting the rooms.

During preparatory works, contractors identified that the tile adhesive under the current carpet tiles contains bonded asbestos as listed on the school's asbestos register.

The carpet tiles have since been carefully reinstalled to keep the adhesive undisturbed until asbestos removal is scheduled outside school hours.

Work to remove asbestos-containing materials will take place on Saturday 13 June 2026. All work involving asbestos containing materials will take place outside of school hours with safety measures such as PPE and air monitoring in place.

For more information about asbestos please visit the [NSW Health website](#) or scan the QR code.

All work will be done in accordance with work health and safety laws and the NSW Department of Education's Asbestos Management Plan. Safety measures will be in place while work is being done. All work will be completed by licensed asbestos contractors and inspected by independent hygienists.

The rooms will be inspected by an independent hygienist and a clearance certificate will be issued before construction can begin.

If you have any questions about this work, please contact the NSW Department of Education on the details below.

Thank you for your understanding during this important work.
