

# Shalvey Public School

Works notification | 29 March 2023

Dear staff and parents/carers,

Works to install new and efficient LED lighting as part of the LED Lighting Upgrade program at Shalvey Public School is underway.

This work will involve working with asbestos containing material in the ceiling eaves of a hallway in Building D.

Work to remove the material will take place outside of school hours on Saturday 1 April 2023, with additional safety measures and monitoring in place before works start.

The area will be cordoned off, and it will remain out of bounds to students and staff until the asbestos containing material has been removed and the LED Lighting Upgrade work is finished.

Work will be done in accordance with SafeWork NSW regulations and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed and accredited asbestos contractors and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies and guidelines.

The area will be inspected by an independent hygienist to confirm it has been fully remediated, and the school will receive a clearance certificate before the area is reopened to students and staff.

The health, safety, and wellbeing of the school and the local community is our highest priority. Thank you for your cooperation during this important work.
