

Cambridge Gardens Public School

Works notification | 5 June 2026

Dear staff, parents, and carers,

The health, safety, and wellbeing of all members of our school and the local community are our highest priorities.

As part of a routine inspection on Thursday 4 June 2026, a member of staff identified fragments of suspected bonded asbestos near the playground and demountables at Cambridge Gardens Public School.

As a precaution, the area was cordoned off to students and staff with temporary fencing.

The location where the fragments were found is listed on the school's asbestos management plan.

For more information about asbestos please visit the [NSW Health website](https://www.health.nsw.gov.au/asbestos/Pages/default.aspx).

Work to remove the asbestos-containing material and surrounding soil will take place on Friday 5 June 2026 within school hours.

All work will be done in accordance with work health and safety laws and the NSW Department of Education's Asbestos Management Plan. Safety measures will be place while work is being done. All work will be completed by licensed asbestos contractors and inspected by independent hygienists before the area is reopened.

If you have any questions about this work, please contact the NSW Department of Education on the details below.

Thank you for your understanding and support during this important work.
