

Valley View Public School

Community update | November 2024

Dear parents, carers and staff,

As part of the NSW Government's plan to rebuild public education, the 2024–25 Budget is delivering record education funding, including \$1.5 billion for maintenance and local upgrades.

As part of this investment, Valley View Public School will receive a share for the construction of 3 retaining walls.

The 3 retaining walls will be replaced to improve site stability and are located:

- next to the Administration Building
- between buildings B and E
- between buildings E and F.

This work will include:

- removing face bricks for structural inspection
- rendering of retaining walls
- wall capping
- balustrades
- replacing the face brick on the retaining wall between buildings B and E.

This work is expected to start in March 2025 and finish in June 2025, weather and other conditions permitting.

More information

We will keep the community updated and provide more information as it becomes available.

If you have any questions about this project, please contact the NSW Department of Education during business hours on the contact details below.
