

Valley View Public School

Works notification | 30 May 2024

Dear staff and parents/carers,

During a routine inspection on 24 May 2024, mould was detected in the student toilets in Building C (school hall building) at Valley View Public School. The toilets were immediately isolated from students and staff, and students were redirected to use other toilets onsite. A hygienist attended the school to conduct testing and provide advice.

A specialist cleaning contractor was engaged to undertake an environmental clean of the toilets between 24 May until 10 June 2024.

The toilets will be inspected by the independent hygienist to confirm they have been fully remediated, and a clearance certificate will be issued before the area is reopened.

All inspections and remediation works will be conducted in accordance with recommendations from the independent hygienist.

The health, safety, and wellbeing of the school and local community is our highest priority.

If you have any questions about this work, please contact the NSW Department of Education on the details below.

Thank you for your cooperation during this important work.
