

Blairmount Public School

Works notification | 7 July 2026

Dear staff, parents and carers,

The health, safety, and wellbeing of our students, staff, and local community are our top priorities.

As part of our ongoing commitment to improving school safety, we are planning to enhance the security of the school's rear boundary along Clydesdale Drive, Blairmount, through planned maintenance works.

The proposed works include the replacement of up to 4 sections of the existing boundary fence to improve the security, safety and overall integrity of the school's perimeter.

Before any works can start, the NSW Department of Education is required to obtain written approval from the neighbouring property owner. Once this approval has been received, the Asset Management Unit will coordinate a suitable time with the contractor and the neighbour to replace part of the fence.

Work is expected to be finished by the end of Term 3 2026, subject to weather conditions and approval from the neighbouring property owner. Work hours are between 7 am and 6 pm Monday to Friday, and 8 am and 1 pm on Saturday, in line with NSW Environment Protection Authority guidelines.

The department is responsible for managing and maintaining its school sites to ensure they remain safe and secure learning environments for students and staff. School grounds are not intended for public access outside approved school activities and authorised use.

If you have any questions about this work, you can contact School Infrastructure during business hours on the contact details below. Thank you for your understanding and support during this important work.
