

Copacabana Public School

Works notification | 17 December 2025

Dear staff, parents and carers,

Central Coast Council will be conducting sewerage and water main system upgrades in Pueblo Street, Copacabana. During these works, the water supply to Copacabana Public School will be temporarily disconnected.

A water outage will be in place all day on **Thursday 18 December 2025**.

A water truck connected to the school's water system will be provided by Central Coast Council. This will provide a temporary water supply for washing, drinking and toilets until the upgrades are finished and normal water supply is restored.

An exclusion zone will be set up outside the school gate near the entry where work will take place.

Access via the main gate in the morning will be unavailable. Students will enter via the carpark gate on Pueblo Street where staff will support their transition into the school.

These works will involve the use of heavy machinery. Lessons will be coordinated to avoid any disruption to learning.

For more information about planned maintenance to water supply, please visit the [Central Coast Council website](#).

The health, safety and wellbeing of all members of our school and the local community are our highest priorities.

Thank you for your understanding
