

# Wyaliba Public School

## Works notification | 6 September 2024

Dear staff, parents and carers,

Further to the [Works Notification on 7 June](#) regarding the drinking water quality test results for Wyaliba Public School, remediation work has been completed by a qualified and accredited tradesperson following advice provided by an independent hygienist.

Re-testing of the affected tap outlets by an independent hygienist has returned results that meet the requirements of the [Australian Drinking Water Guidelines](#).

Access to the tap outlets in the following locations has been restored and can be used again by students and staff:

- basin in the girls' toilets in Building F
- basin in storeroom in Building E
- sink located in the library demountable.

Please note that the basin in the storeroom of Building E was incorrectly listed as an outlet in Building H in the Works Notification dated 7 June.

The health and wellbeing of students, staff and the local community is our highest priority.

Thank you for your cooperation during this important work.
