

Tacking Point Public School

Works notification | 25 February 2026

Temporary accessible toilet installation – Starting Friday 27 February 2026

Works to install an additional accessible toilet facility at Tacking Point Public School are scheduled for Friday 27 February 2026, weather permitting. We are installing these facilities as part of the multi-categorical classroom that was established earlier this year.

Delivery vehicles and cranes will enter the school via the vehicle access gate on Bangalay Drive. Please see below the map for the vehicle access and installation area.

Where required, traffic controllers will be in place to ensure safety for students and the wider community. All works will take place between 7 am and 5 pm, Monday to Saturday. Some deliveries to the school may need to take place outside of normal work hours because of the size of the trucks required. This is to minimise the impact on road users, the general public and school operations.

We will work to ensure that all works are carried out safely and efficiently and will minimise impacts to the community at every opportunity.

These works are unrelated to the construction of the new public preschool. Thank you for your cooperation and understanding.
