

Ropes Crossing Public School

Works notification | 21 June 2024

Upcoming geotechnical investigations work

During the winter school holidays, we will conduct geotechnical site investigations at Ropes Crossing Public School. The investigations will involve creating a small number of boreholes across the school site to obtain soil and rock composition information. We will use a drill rig to make these holes, which is roughly as loud as a commercial lawnmower.

These works are planned for the school holidays to minimise impact on the school community. The area will be inaccessible to the public during the work to ensure safety.

Working hours

The works are scheduled to occur during the winter school holidays between Monday 8 July and Monday 15 July from 7 am to 5 pm, Monday to Friday.
