

Northbourne Public School

Works notification | 13 June 2025

Dear staff, parents, carers and neighbours,

The school holidays are the ideal time to complete maintenance and project work across the state without disrupting learning.

We are planning to remove 13 demountable buildings at Northbourne Public School during the Winter School Holidays – from the end of the school day on Friday 4 July 2025 up to Day 1 Term 3 (Tuesday 22 July 2025).

The space left by the demountables will be transformed back into the school sports oval.

The demountables being removed will be repaired, refurbished, and if required, relocated to where they are most needed.

Preparation work

To prepare for the removal, we are relocating furniture and equipment in the demountables to other learning and teaching spaces across the school.

This work will take place on Saturday 14 and Sunday 15 June 2025.

Students and staff will be relocated to other classrooms in the school from Monday 16 June 2025.

Electronic interactive education boards will be disconnected and, under the guidance of the school principal, either stored or relocated to another room from Monday 16 June 2025.

This work will be completed before the school holidays start.

School holiday removal work

Between Friday 4 July 2025 and Friday 11 July 2025, qualified electricians will disconnect power and all electrical components in the 13 demountable buildings.

When electrical work is complete contractors will begin removing the demountables.

Following this work, the oval will be levelled, and new grass will be laid to restore the oval to its original condition.

The oval work is expected to be finished early in Term 3, depending on site and weather conditions.

The health, safety and wellbeing of all members of our school and the local community are our highest priorities.

If you have any questions about this work, please contact the NSW Department of Education on the details below.

Thank you for your patience and cooperation during this important work.
