

Googong Public School

Works notification | 30 July 2026

Dear staff, parents and carers,

The health, safety and wellbeing of our students, staff and school community are our highest priorities.

To support increased and future enrolments at Googong Public School, 2 demountable classroom buildings are being installed.

Crane and truck set-up will take place on Thursday 14 August 2026, with installation of the demountable buildings starting on Friday 15 August 2026. The new learning spaces are expected to be ready for use by Week 7 of Term 3, Monday 31 August 2026, weather permitting.

To support teaching and learning during the installation, one class will be temporarily relocated to the school library until the new classrooms are available.

The Out of School Hours (OOSH) service will continue to operate as normal and will not be affected by these works.

These new learning spaces will provide additional modern teaching facilities to support students and staff.

What you can expect

During the installation, you may notice:

- increased construction activity on site
- temporary noise from construction equipment and machinery
- additional contractor and delivery vehicle movements around the school
- temporary changes to pedestrian or vehicle access to ensure the safety of students, staff and visitors.

Construction work will take place between 7 am and 6 pm, Monday to Friday, and 8 am and 1 pm on Saturdays, in accordance with NSW Environment Protection Authority guidelines.

Every effort will be made to minimise disruption to the school and neighbouring properties. The contractor will implement appropriate measures to manage noise, dust and traffic throughout the works. The construction area will be securely fenced and separated from students, staff and visitors at all times.

Installation access and traffic changes

On Thursday 14 August 2026, the crane and delivery truck will be positioned on Aprasia Avenue to deliver the demountable buildings.

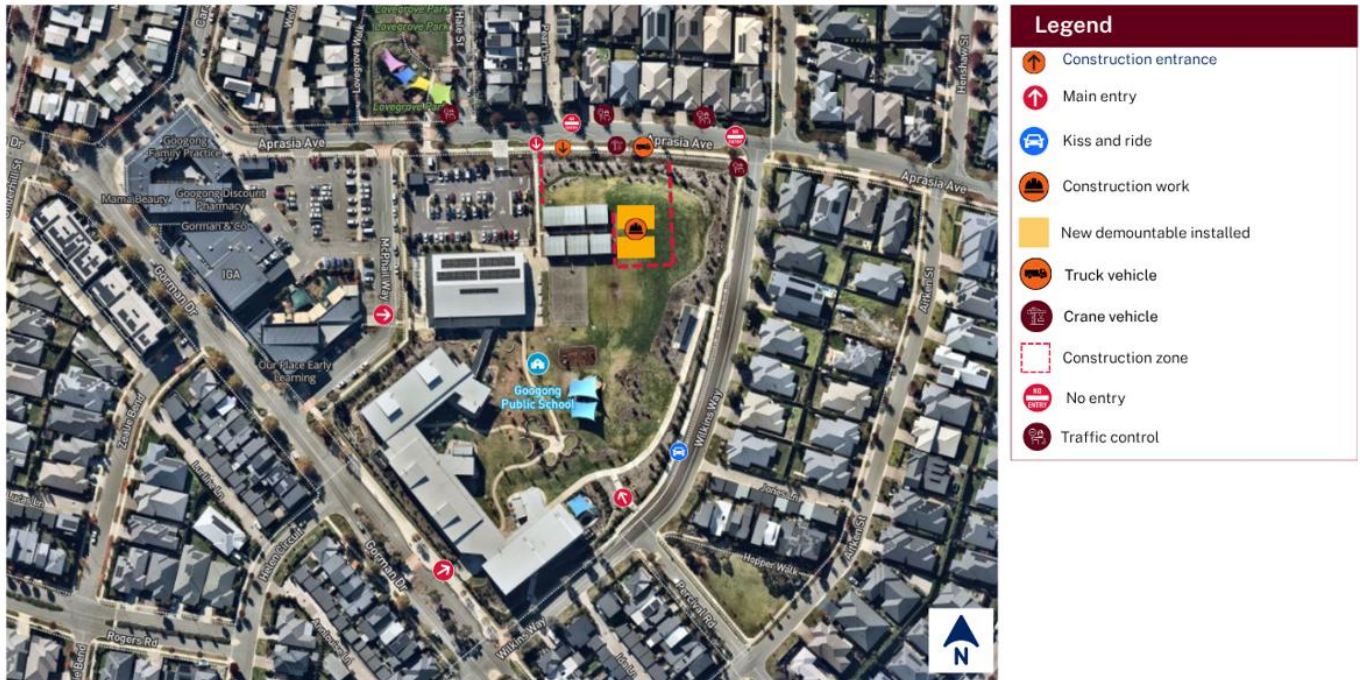

On Friday 15 August 2026, the demountables will then be installed by the crane onto the school site. Traffic management will be in place, and a road closure will be required while these works are undertaken via Aprasia Avenue. Please detour via Wilkinson Way and Gorman Drive.

Phone: 1300 482 651
schoolinfrastructure.nsw.gov.au

Traffic controllers will be onsite throughout these activities to safely manage vehicle and pedestrian movements.

School access during the works

Gates 1 (Gorman Drive), 2A (Wilkins Way) and 3 (Kiss and Ride in Wilkins Way) will be open as normal. Gates 4 (Aprasia Avenue), 5 (Staff carpark in Aprasia Avenue) and 6 (McPhall Way) will remain accessible to the school community unless otherwise advised by traffic management.

If there are any significant changes to the project or construction schedule, the school community will be notified.

Thank you for your ongoing support as we continue to invest in safe, modern and well-maintained learning environments for our students.
