

# New Lambton Heights Infants School

## Works notification | 9 March 2023

Dear staff and parents/carers,

We will be undertaking soil testing for asbestos as part of due diligence work to provide a new sports court next to Building E at New Lambton Heights Infants School.

The testing by an independent hygienist will confirm if soil in the area contains asbestos and will need remediating. The material being tested is covered in line with advice and protocols from asbestos hygienists and other experts.

Testing will take place on Saturday 11 March 2023, weather depending. If needed, it will be completed on the following Saturday 18 March 2023.

If the asbestos containing material is found in the soil, it will need to be remediated before the sports court is built. Any remediation will be undertaken in accordance with SafeWork NSW regulations and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed and accredited independent asbestos contractors and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies, and guidelines.

The health, safety, and wellbeing of the school and local community is our highest priority, and we will continue to keep the community updated.

Thank you for your understanding during this important work.
