

# Beverley Park School

## Works notification | 19 June 2025

Dear staff, parents and carers,

As part of routine maintenance inspections, small cracks were found in the ceiling of a carport and movement area near a courtyard of Building A at Beverley Park School during the April 2025 Autumn School Holidays.

The cracks were taped over as a temporary measure until work to replace the ceilings can take place.

Work to remove and replace the cracked ceilings will take place outside of school hours between Friday 27 June and Sunday 29 June 2025. This work involves bonded asbestos, as listed on the school's asbestos register.

NSW Health explains that "living or working with asbestos, or just being around it, is a low risk to your health as long as the asbestos is in good condition and not damaged".

All work will be done in accordance with work health and safety laws and the NSW Department of Education's Asbestos Management Plan. Safety measures, including air monitoring, signage and workers wearing personal protective equipment (PPE) will be in place while work is being done. All work will be completed by licensed asbestos contractors.

Once the remediation work is completed, an independent hygienist will inspect the work and issue a clearance certificate before the areas are reopened for use.

The health, safety, and wellbeing of all members of our school and the local community are our highest priorities.

Thank you for your cooperation during this important work.
