

NSW Department of Education

Fowler Road School

Works notification | 29 May 2024

Dear staff, parents/carers,

We will be replacing the eaves on one of the classroom demountables at Fowler Road School on Saturday 15 June 2024.

During this work we will be removing bonded asbestos material contained within the eaves on the north and south side of the demountable as indicated on the school's asbestos register.

NSW Health explains that if bonded asbestos is mixed with cement or other hard bonding materials, and in good condition, it is likely to be low-risk.

The demountable is continuing to be used as the asbestos is undisturbed and in good condition.

The perimeter of the demountable will be cordoned off before work starts, and air monitoring will be installed.

All work will be done outside of school hours, in accordance with work, health and safety laws and the NSW Department of Education's Asbestos Management Plan. Safety measures are in place while work is being done. All work will be completed by licensed and accredited asbestos contractors and monitored by independent hygienists in strict accordance with all applicable legislation, regulations, policies, and guidelines.

The demountable will be inspected by the independent hygienist to confirm it has been fully remediated, and a clearance certificate will be issued before the demountable is reopened.

The health, safety, and wellbeing of the school and the local community is our highest priority.

Thank you for your cooperation during this important work.

If you have any questions, please contact the department on the details below.
