

Glenvale School, North Entrance Campus

Works notification | 14 May 2025

Dear staff, parents, carers and neighbours,

Since our last update (21 November 2024), we are continuing to manage in-ground asbestos according to the Remediation Action Plan (RAP) at Glenvale School, North Entrance Campus.

Fence replacement

We will be replacing the western boundary fence along Hutton Road at the school.

Work will take place over weekends between Saturday 31 May and Sunday 15 June 2025, weather and other conditions permitting. We will be removing the existing security fence panels and installing new panels of the same height, colour and style.

Temporary fencing will also be installed around the work area, and pedestrians will use the footpath on the opposite side of Hutton Road.

Managing asbestos during the works

As part of this work, we will be working with suspected asbestos-containing material in the ground.

All work involving asbestos-containing materials will take place outside of school hours on Saturday 31 May and Saturday 7 June 2025.

All work will be done in accordance with work health and safety laws and the NSW Department of Education's Asbestos Management Plan. Safety measures will be in place while work is being done. All work will be completed by licensed asbestos contractors and inspected by independent hygienists.

The area will be inspected by the independent hygienist to confirm it has been fully remediated, and a clearance certificate will be issued before the area is reopened.

If you have any questions, please contact us on the details below.

Thank you for your cooperation during this important work.
