# Sir Eric Woodward Memorial School

Project update | November 2022

## Investing in our schools

As part of the NSW Government's COVID-19 Recovery Plan, \$120 million has been committed to accelerate projects and deliver modern infrastructure to schools right across regional NSW. An additional \$120 million is available for schools in metropolitan Sydney to deliver a range of projects that will help improve the amenity of their school.

The NSW Department of Education is committed to delivering new and upgraded schools for communities across NSW. The delivery of these important projects is essential to the future learning needs of our students and supports growth in the local economy.

## Project overview

A project is underway at Sir Eric Woodward Memorial School to build a new school hall which will include sports courts, facilities for assemblies and performances, and amenities.

The new hall will accommodate a variety of learning, recreational and communal activities. The project also includes the construction of new covered pedestrian paths to connect the existing buildings to the new hall.

## Progress summary

Since the last update distributed in August 2022, we have finished:

- establishing the construction site, disconnecting services, survey works and removal of trees
- bulk excavation and earthworks
- installation of stormwater and inground services
- pouring the concrete floor slab
- relocating the existing shed

## | NSW Department of Education – School Infrastructure

- painting of structural steel
- installing the structural steel frame for the new multi-purpose hall.

### Next steps

Upcoming work will include installing roof insulation and metal roofing, installing the internal and external wall and external brickwork.

Works on the ceiling lining and acoustics are also expected to be undertaken in the upcoming weeks.

Construction work hours are 7 am to 6 pm Monday to Friday and 8 am to 1 pm on Saturdays. No work will take place on Sundays or public holidays unless otherwise notified.

School Infrastructure NSW will work closely with the school to minimise any disruption to students and staff during construction. This may mean conducting portions of work during weekends or school holiday periods or exploring options to lessen the impacts of construction on school operations and student learning.

### More information

If you have any questions about the project please contact School Infrastructure NSW by phoning 1300 482 651 or emailing [schoolinfrastructure@det.nsw.edu.au](mailto:schoolinfrastructure@det.nsw.edu.au).

We will work to support the school by providing timely, up-to-date information about the status and next steps of the project, plus any impacts on the school community and its surrounds.
