

Sir Eric Woodward Memorial School

Works notification

26 August 2022

A project is underway at Sir Eric Woodward Memorial School to build a new school hall which will include sports courts, facilities for assemblies and performances, and amenities.

The new hall will accommodate a variety of learning, recreational and communal activities. The project also includes the construction of new covered pedestrian paths to connect the existing buildings to the new hall.

Upcoming works

We are writing to inform you of potentially noisy works required as part of the Sir Eric Woodward Memorial School upgrade.

During excavation, the construction team have uncovered a rock shelf at the north eastern corner of the site. The rock needs to be removed to ensure the area is ready for the concrete works that will start next week.

An excavator with a rock hammer attachment is being used to enable the rock to be removed.

The rock removal work is taking place between 8am and 4pm. We expect these works will be completed on Monday 29 August 2022, weather and site conditions permitting.

We are working closely with the school to minimise any disruption to students and staff during construction.

Thank you for your understanding during this important work.
