

Dorroughby Environmental Education Centre

Works notification | 31 July 2025

Dear staff, parents, and carers,

Following the [works notification in Autumn 2025](#) regarding drinking water quality test results for Dorroughby Environmental Education Centre, remediation work has now been completed by a qualified and accredited tradesperson.

Re-testing of the affected tap outlets by the independent hygienist has confirmed the results meet the requirements of the [Australian Drinking Water Guidelines](#).

Access to the following tap outlets has now been restored:

- the external tap northwest of Building A
- the external bubblers southwest of Building C
- the sink in the Building A staffroom
- the taps in the Building C student shower facilities and accessible toilet basin.

The health and wellbeing of students, staff and the local community is our highest priority.

Thank you for your cooperation during this important work.
