

# Newcastle Junior School

## Works notification

15 September 2022

Dear staff and parents/carers,

Upcoming maintenance works as part of the Roof Replacement Program at Newcastle Junior School will involve working with lead containing material contained within the roof cavity of Block C.

Work will take place during the upcoming school holidays between Saturday 24 September and Friday 7 October 2022.

The area will be cordoned off before works start, and additional safety measures and monitoring will be put in place. It will remain out of bounds to students and staff until the removal and associated maintenance work is completed.

This material will be remediated in accordance with SafeWork NSW regulations. All work will be completed in strict accordance with all applicable legislation, regulations, policies and guidelines.

The area will be inspected to ensure it has been fully remediated. The school will receive a clearance certificate before the area is open to students and staff.

The NSW Government is investing \$60 million to provide roof repairs and replacements to priority schools across rural and regional NSW.

The health, safety, and well-being of the school and the local community is our highest priority.

Thank you for your cooperation during this important work.
