

Ajuga School

Works notification | 7 March 2024

Dear staff and parents/carers,

We wish to advise that today, Thursday 7 March, the NSW Environment Protection Authority (EPA) has advised that precautionary testing of mulch at Ajuga School has come back negative for asbestos.

The school was one of a number of schools that the EPA visited last week to take samples as part of its investigation into contaminated mulch.

The department thanks the school community for their understanding as the EPA undertook this precautionary action.

If you have any questions, please contact the Department of Education on schoolinfrastructure@det.nsw.edu.au or during business hours on 1300 482 651.
