

Penrith Valley Learning Centre

Works notification | 4 December 2023

Dear staff and parents/carers,

We have replaced a light fitting in Building B in the courtyard, which involved working with asbestos containing material in the ceiling.

Work took place on the weekend of Saturday 2 December to Sunday 3 December. The area of the ceiling was boarded up with wood panels before the work took place.

All work involving asbestos containing materials took place outside of school hours. Work was done in accordance with SafeWork NSW regulations and the NSW Department of Education's Asbestos Management Plan. The work was completed by licensed and accredited asbestos contractors and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies, and guidelines.

The roof cavity will be inspected by an independent hygienist to confirm it has been fully remediated, and the school will receive a clearance certificate.

The health, safety, and wellbeing of the school and the local community is our highest priority.

Thank you for your cooperation during this important work.
