

Yawarra Community School

Works notification | 9 September 2024

Dear staff, parents and carers,

A staff member identified suspected mould on Monday 2 September 2024, beneath a section of carpet in the breakout room located in Building JJ at Yawarra Community School.

As a precaution, the room was closed on Tuesday 3 September, to restrict access for both students and staff. Alternative arrangements for the breakout room have been put in place.

A mould remediation contractor visited the site on Wednesday 4 September, to inspect and provide advice on remediation. The contractor removed the affected section of carpet and treated the mould patch, along with the rest of the room, with an anti-mould spray.

The contractor will investigate the cause of the mould and replace the carpet in the breakout room.

An independent hygienist conducted sampling on Thursday 5 September.

Access to the breakout room will remain restricted until the carpet is replaced, and a clearance certificate from the independent hygienist is received. The surrounding rooms will remain accessible.

All work involving hazardous materials will be conducted with safety measures in place, including air monitoring.

The health, safety, and wellbeing of the school and the local community remain our highest priority.

Thank you for your cooperation during this important work.
