

Scone Public School

Works notification | 27 February 2026

Dear staff, parents, and carers,

Following our notification issued on [Friday 20 February 2026](#), we are pleased to advise the air conditioning upgrade at Scone Public School is now finished and the new units will be operational from Monday 2 March 2026.

Regular school arrangements will resume from Monday 2 March 2026 with all classrooms reopened for use.

We hope the school community enjoys this air conditioning upgrade, which will provide reliable temperature control all year round.

Thank you again to the teachers, staff and students at Scone High School for their support during the temporary relocation.

Some additional work to replace external unit components will continue over the next 2 weeks, however this will not impact school operations or use of the new air conditioning units.

The health, safety and wellbeing of all members of our school and the local community are our highest priorities.

Please contact School Infrastructure on 1300 482 651 or at schoolinfrastructure@det.nsw.edu.au if you have questions about the work.

Thank you for your patience and cooperation during this work.
