

Balmain Public School

Works notification | 21 November 2025

Dear staff, parents, and carers,

In partnership with the school's Parent and Citizen Association, we will soon begin work on an air conditioning upgrade at Balmain Public School. This work is aligned with a major electrical upgrade we recently completed at the school.

The upgrade includes the preparation and installation of 9 new air conditioning units across 9 classrooms on levels 1 and 2 in Building A.

Installation will start in late November 2025 and will continue over the summer holidays. We are working closely with the school leadership team to ensure works are carried out efficiently with minimal disruption to the school community.

During the upgrade, levels 1 and 2 of Building A will be temporarily fenced off in different stages. Lessons normally held in these classrooms will be temporarily relocated to other available spaces in the school.

New air conditioning units are expected to be in place by Day 1 Term 1 2026.

Investigations into air conditioning upgrades in other spaces at the school are currently underway. This work is in the planning stage. We will continue to keep the community informed as this progresses.

Work hours

Air conditioning upgrades will take place between 7 am and 6 pm, Monday to Friday and 8 am and 1 pm on Saturday. No work will take place on Sundays or public holidays.

There may be some construction noise while electrical works are happening, and we will minimise any disruption to learning.

The health, safety and wellbeing of all members of our school and the local community are our highest priorities.

If you have any questions about this work, please contact the NSW Department of Education on the details below.

Thank you for your patience and cooperation during this work.
