

# Balmain Public School

## Works notification | 27 February 2026

Dear staff, parents, and carers,

We are pleased to advise that air conditioning upgrades at Balmain Public School are now complete.

Following a significant electrical upgrade completed in late 2025, 13 new air conditioning units were installed during the recent summer school holidays in buildings A, B and C.

In partnership with the Balmain Public School Parents and Citizens Association, this work was finished in time for Day 1 Term 1 2026.

### Message from your Principal

I am delighted to share the exciting news that our air conditioning upgrade project is now complete! This important enhancement means our classrooms are now equipped with 13 new units, creating a comfortable, climate-controlled environment where both students and staff can thrive.

A comfortable learning space is a foundation for inspiration, curiosity, resilience, and creativity to flourish. With this upgrade, we are better equipped to nurture every student's potential and support the wellbeing of our entire school community.

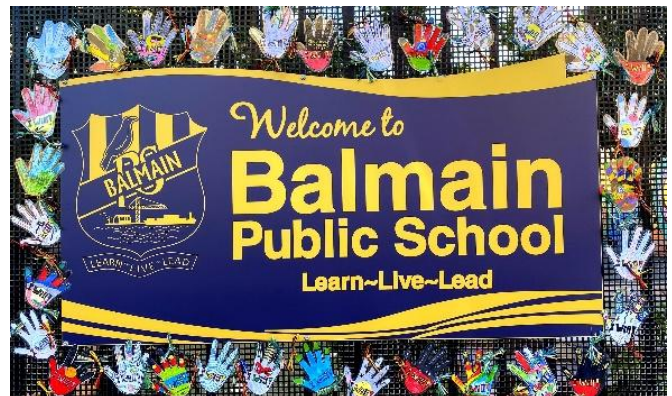

This achievement would not have been possible without the dedication and fundraising efforts of our P&C. I extend my heartfelt thanks to them for their tireless support. To all students, staff, parents, carers and residents, thank you for your patience throughout this project.

Together, we continue to build a school where everyone feels valued, supported, and ready to learn.

Kind regards,

Mrs Maria Lambos

**Principal, Balmain Public School**
