

Croydon Park Public School

Works notification

20 September 2022

Dear staff and parents/carers,

Upcoming planned maintenance works at Croydon Park Public School will involve working with asbestos containing vinyl floor tiles in room ER0022 in Block E.

The material is bonded asbestos, which means it is attached to the vinyl and cannot be crumbled by light pressure.

Work to remove the vinyl floor tiles will take place between Monday 26 and Thursday 29 September 2022. All asbestos containing material will be removed outside of school hours in the school holidays.

The area is currently safe but will be cordoned off before works start. Safety measures and monitoring will be put in place, including air monitoring while the work is undertaken. The area will remain out of bounds to students and staff until the removal and associated maintenance work is completed.

The area will be remediated in accordance with SafeWork NSW regulations and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed and accredited asbestos contractors, and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies and guidelines.

The area will be inspected to ensure the area has been fully remediated. The school will receive a clearance certificate before the area is open to students and staff.

The health, safety, and wellbeing of the school and the local community is our highest priority. Thank you for your cooperation during this important work.
