

Gardeners Road Public School

Works notification | 6 June 2023

Dear staff and parents/carers,

As part of planning for roof replacement works and routine maintenance at Gardeners Road Public School, some lead containing material was identified on some roof tiles on Block C.

On the advice of the independent occupational hygienist, some precautionary remediation will occur outside of school hours from Tuesday 6 June.

The independent occupational hygienist has confirmed Block C remains safe for general occupation as the affected areas are located on the roof, sealed off, and therefore inaccessible to students, staff and visitors.

Safety measures, including air monitoring, will be in place and all work zones will be out of bounds while work is carried out.

All work will be undertaken by a licenced and accredited contractor and monitored closely by the independent occupational hygienist.

The roof will be inspected by the independent occupational hygienist to confirm it has been successfully remediated, and the school will receive a clearance certificate.

Following this remediation, further planning for the roof replacement will continue, with major work scheduled for the Term 2 holidays.

If you have any questions regarding the work, please contact School Infrastructure NSW on 1300 482 651 or email schoolinfrastructure@det.nsw.edu.au
